

September 3, 1957

When the commissioners and their attorney met today the first matter to consider was transportation for several boys from Hollywood who should attend Ryken, but who will have to attend St. Michaels if they go to parochial high school. Parents Mrs. Irving Garner and Mrs. Jamieson complained that to make the proper connections the boys would have to leave home before 7 am, meet the bus that goes down 7 Gables road, transfer to the bus to Little Flower and then go to St. Michaels. It then appeared they could not meet the bus at Little Flower and reach St. Michaels by 9 am. Fr. Daugherty came in the morning with the parents to see about this. In the afternoon the parents returned and met with Fr. Wilkinson in an attempt to settle the matter and asked he request the Archbishop to open St. Mary's Academy for male students. This cannot be done this year and the parents left with plans for other arrangements.

Mrs Hughes of the 7th came in to ask that something be done about her road as it is very dusty.

Messrs Wilkinson, Gleue and Wilson came in about the extension to the Blackistone Road in Hollywood. There are 30 property owners on this road and the extension would be 3/4 mi. They were advised to secure a petition asking for this extension, agreeing to give a 40' R of Way and have all recorded at no cost to the County, then the County will take over for maintenance. When they asked that road be oiled they were advised the only relief that could be given was the use of calcium chloride to lay the dust.

Alex Hebb was requested to pick up the 2 Mattingly boys at Red Hill add 2 mi per day to his contract.

J Earl Watton to put on new bus 85 mi per day extension \$300 allowance to be given him for this new bus.

Meeting with J.L. King from office of the Comptroller re) Coin Op. machine returns. Lengthy discussion followed. Mr. King personally checks every machine licensed in the County - there is no way to check exact receipts due to payment of Jack Pot etc. Comptroller's office will notify each machine owner that 10 1/2% comes out of the receipts. Mrs. Welch is to send in a list of those who fail to make monthly reports. All owners to be advised that unless they send in their reports regularly when license expires it cannot be renewed.

Roads - Mr. Bond asked that all maintenance money be kept for that purpose, then in May of each year if any is left can be used for repairs, oiling etc. SRC agrees to let Farm Board have use of Snow Fence during Fair time. Mr. Bond will get 6-7 good workers to put it up and Fair Bd pay them. Mr. Alvey will report this to Fair Board and let Mr. Bond know their decision.

Park Hall Road - Hermanville; lower end of road to be checked by Mr. Alvey and Douglas Bond. Mr. Stone and Mr. Bond will talk to Mr. Dixon and get idea of what is needed. Get County Surveyor to make survey SRC put in stakes, then secure Federal aid if possible for road.

Advise Mrs. Holland on Benson - St. Andrews Church road not sufficient homes on this road to warrant building new road.

Cmdr. Downes on 7 Gables Rd asks for bus - 1 boy to Ryken 2 children to St Johnson  
Mr. Alvey took care of this matter.

Board adjourned at 4:30 pm  
approved
