

May 9, 1961

All officials in attendance today.

Killian Laischalt, salesman for Wise Homes, and V. Mast, sanitarian of the County Health Dept., were present with reference to Percolation Tests performed by the Health Dept. Mr. Laischalt wanted to know why the Percolation tests could not speeded up so that Bldg permits could be issued. The Commissioners cooperate with the Health Dept in these matters, requiring a Percolation test be made before a permit can be issued. The Commissioners saw no reason to change the present plan.

Mrs. Wood who has a site on Lloyd Bean's sub-division inquired the same as above. She was advised that when the Percolation Test was approved by the Health Dept a Building permit could be issued.

Letter to be written to the Laboratory at Solomon's, asking if the sewage from the proposed sub-division at the Cuniberto farms could be damaging to oysters etc. Commissioners cannot approve the sub-division plans until they are assured no damage will ensue from the sewage there. (Letter sent to Comm. Tidewater Fisheries, Box 38, Solomons, Md.
